The **HFI** Pipeline

Harrell-Fish Inc.

"Safety Is Our Culture"

Congratulations to Chris Woods the Safety Award winner for February. Seen here accepting his award with HFI President Steve Dawson on a recent trip to MacAllister Machinery in Washington.

So far for 2014 we are Incident Free! Staying focused on safety first and keeping everyone on all of our sites safe for another day.

HFI Residential Welcomes Dylan Christenberry

The HFI Residential Service Team is happy to welcome Dylan Christenberry to the family. Dylan has impressed us with his ability to learn quickly out in the field. He is an avid sportsman and accomplished athlete excelling at archery, fishing, baseball and basketball.

HFI is thrilled to have Dylan join our team!

We didn't waste any time getting him busy. He is already busy helping with the large apartment change out project and our first Habitat for Humanity install.

Did You Know...

HFI is a leader in Energy Services?

If you can measure it, we can manage it, and save you money. HFI can measure, analyze, benchmark, and monitor your current energy usage and use Energy Print and Energy Star technologies to compile data, analyze and compare your facility to other like buildings in our area - providing you the tools and to make smart investments.

HFI have staff whom are LEED Accredited Professionals in Existing Buildings - Operations/Maintenance, and we are Energy Star Certified. We will evaluate your current equipment for Energy Efficiency and recommend maintenance or replacement of the equipment based on a Lifecycle Cost Analysis. We work closely with local energy providers to ensure that our clients receive the maximum utility rebates as are available.

Find us in print & on the internet

HFI is expanding our marketing outreach. Have you seen any of our recent marketing inserts?

In the *Homes* section of **The Herald Times** the 1st Saturday of every month.

HFI offers a variety of water conservation solutions including low-flow fixtures, hot water circulation loops, and sub-metering. We help you understand your building needs and reduce wasteful spending.

If you are interested in our energy services contact HFI to discuss how we can help you to conserve energy.

Construction Corner

HFI is proud of the work our technicians are doing at the MacAllister Machinery plant expansion in Washington.

The piping work the guys are doing at the plant, as it expands, is comprehensive.

There are thousands of feet of piping with intricate curves, connections, and fittings. The superior care the technicians are using in completing the project reflects on all Harrell-Fish team members.

HFI Employees Celebrate!

March

- 1st - Ed Balbach; Donnie Snyder
