Food Service

KE2 Temp & Defrost

The KE2 Temp & Defrost controller is designed to simplify refrigeration controls by combining the functions of a thermostat and defrost timeclock. A robust design provides versatility for a wide range of medium temperature applications with air defrost.

Features:

- Replaces a thermostat and a timeclock
- Temperature sensor included
- Compressor protection
- Off time defrost on schedule
- Ideal for wine cabinets, under counter refrigerators, commercial kitchen refrigerators and walk-in coolers.

Service

Polar Vortex II

Construction

Perry Clear Creek Fire Station

The newly renovated and constructed Perry Clear Creek Fire Station #21 is ready to help protect and serve the community. HFI worked with Fox Construction, and other local contractors, to complete this project which included renovating the garage into living space for the firefighters. New HVAC systems and plumbing were installed in the renovated space.

The project also included a new garage to house the fire trucks. The garage featured a Vehicle Exhaust System. This system allows the engines and other vehicles to be started in the garage and run, while the firefighters prepare to face what is ahead of them, without exposing them to the danger of breathing in the fumes

With the temperatures dropping drastically in the last few days are you anticipating the next Polar Vortex?

Our Service Techs are always busy with priority clients. However we have 42 Service Techs that are on call 24 hours a day, 7 days a week, 365 days a year. Call us and we will help you weather Polar Vortex III! 812-339-2579

Safety Spotlight

Safety Award Winners: Greg Stillions & Pete Jessee

Greg is seen receiving his award from Jeremy Branaman (who looks a little envious); Greg and Jeremy are working at Cummins in Seymour.

Pete Jessee is seen receiving his award from Randy Chambers, Service Dispatcher and Luke Sympson, Safety Committee Member.

from the vehicles. The vehicle exhaust system then automatically disconnects from the truck as they pull away.

It was a pleasure to work with the firefighters of Perry Clear Creek Fire Station #21 to provide them with a building and systems that will allow them to do their jobs safer and more efficiently.

Industrial

Prefabricated Pipe Racks

Getting the job done quickly is important to most clients, but even more so to our industrial clients. HFI is always looking for ways to improve our prefabrication methods.

The photo above shows the recent installation of some pre-fabricated pipe racks at a local industrial facility. Prefabricating the complete pipe rack assemblies in our shop allows HFI to perform a field install in days rather than taking weeks as it has in the past.

HFI Employees Celebrate!

November

- 2nd - Daylight Savings Begins (Fall Back)
- 4th - Election Day

Congrats again to Greg and Pete and to ALL HFI employees for making October safe. November is a ZERO-INCIDENT month thus far - please continue making Safety a Priority.

We will have the Safety Award drawings for November at the MANDATORY Safety Meeting on Wednesday, November 26th at Liberty Crossing, in Bloomington.

- 11th - Veterans Day (Thank a Veteran!)
- 13th - Michael Bruner
- 18th - Justin Vertin
- 20th - Michael Hayes
- 26th - Safety Training (Liberty Ballroom)
- 27th - Thanksgiving Day

December

- 2nd - Scott Gress
- 3rd - Ryan Hamm
- 5th - Jacobi Hillenburg
- 12th - Steve Legan
- 13th - Aaron Beyke
- 14th - Matt Goff
- 21st - Jeff Adams, Nancy Baldwin
- 22nd - Rod Keel, Shad Snoddy
- 24th - Brandon Compton
- 25th - Christmas Day

What to look for in

Residential

WI-FI Thermostats

With the holidays upon us we thought it might be a good idea to remind you about the usefulness of Wi-Fi Thermostats. There are several versions on the market now. Not only do they help clients to lower their utility costs by programming them for daily use, they can also be easily adjusted via a smartphone and Wi-Fi link should you forget to change a setting prior to leaving for a vacation or weekend away. If you have questions about thermostats or want to schedule an installation, we are happy to talk to you. We can get one of our service technicians will scheduled to install one right away.

Award Winners

HFI Residential Services was chosen to receive an Associate of the Month award from the Monroe County Building Association for September. The award is chosen by the MCBA Board based on participation in MCBA events and other community involvement.

The award was presented by Ben Beard (far right), Gentry Group, 2014 MCBA Board Vice President at the October MCBA General Membership Meeting.

The award was accepted by Account Managers Mike Gavin, Ryan Utnage & Nancy Baldwin.
